

Avaya 9620 IP Handsets

Avaya 9620 IP Telephones are specifically designed for the everyday telephone user – those who rely on multiple communications tools such as e-mail and IM, yet still require a high quality and intuitive telephone for voice communications.

The high fidelity audio of the 9620 IP Telephone provides crystal clear sound, eliminating background noise, while the backlit display and intuitive interface simplifies access to critical telephone features – such as one-touch dialing from the contact list and accessing recent call information from call logs.

And keep in mind

Improved total cost of ownership: The 9620 supports a portfolio of telephone modules and adapters and accessories such as wideband headsets and an adapter to support Gigabit Ethernet – allowing for flexible and cost-effective enhancements and investment protection.

Security and reliability: With enhanced protection against denial of service attacks and support for 802.1x, as well as improved VLAN separation, the 9620 delivers the high level of security and reliability that you've come to expect from Avaya.
