Migration Strategy
In continuing to extend value to Modular Messaging customers, Avaya will offer Modular Messaging R3.1. This release provides numerous enhancements to Release 1.1 with Domino, including; Aria and Serenade TUI support, Personal Distribution List and Broadcast Message support, Subscriber configuration of Personnel operator, and support on the Avaya S3500 server.

Modular Messaging R1.1 with Domino systems can be upgraded to Modular Messaging R3.1 directly. Please note that Brooktrout analog port cards that were supported with Unified Messenger and Unified Messenger customers who upgraded to Modular Messaging Release 1.1 are NOT supported with Modular Messaging Release 3.1. Customers who may still have these cards in place need to replace these cards in order to upgrade to Modular Messaging R3.1.

For additional information regarding Modular Messaging R3.1 and upgrading your current Messaging System please contact your Avaya Representative or Authorized Business Partner.
